

Changes to the workflow of dysplasia evaluations

As of 21 December 2023, the workflow for dysplasia evaluations on the PHD platform has been adapted as follows:

- The creation and submission of an application for a dysplasia evaluation will remain unchanged.
- Once the dysplasia committee has completed an evaluation, you will see the results summarised at the bottom of the application:

Evaluation			
HD score right	ED score right	OC (shoulder) score right	LST score
A	0	Free	0 - normal
HD score left	IP MC IN O ART	OC (shoulder) score left	Spondylosis score
A	A D C C H	Free	0
	No No No No No		VCM Score
	ED score left		0
	0		
	IP MC IN O ART		
	A D C C H		
	No No No No No		

Comment Message to the veterinarian

- To generate the evaluation PDF, click on the "FINALISE" button at the top right:

Evaluation available
FINALISE

- A pop-up window will appear in which the owner's details are displayed. Here you can update the owner's e-mail address, select whether and if so which X-ray images you would like to provide to the owner and, if necessary, add a comment to the report.

Finalise the order

Are you sure you want to finalise this dysplasia evaluation order?

Pet owner invitation

Please fill the information to invite the pet owner

First name* Fritz	Last name* Muster
E-mail* lucretia.watkins@phd-ag.ch	Preferred language* English

Select x-rays for pet owner

Pet owner has requested x-ray images: Yes

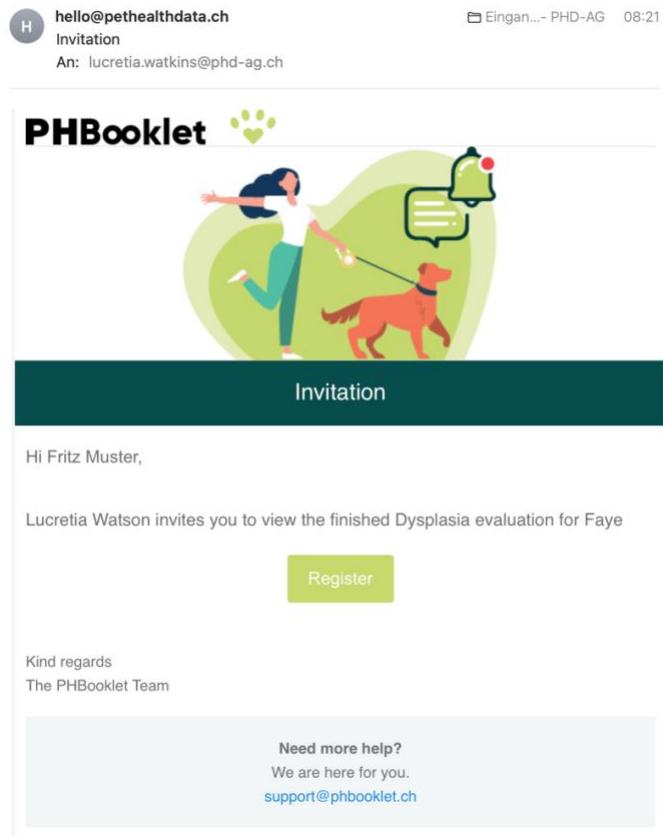

No x-rays are available for this dysplasia evaluation.

Comments
no further comments. x-rays not digitalised

CANCEL

CONFIRM

- If you then click on "CONFIRM", an e-mail will be sent to the owner with a link to register on the PHBooklet platform:

- After the registration process, the owner will be shown the animal and evaluation. The owner has 14 days to download the report for free. Alternatively, he can purchase a PHBooklet subscription in the online payment system and thus have access to the [PHBooklet](#) and all other documents for one year.

Please inform the owner during the X-ray consultation that he will receive an automatic e-mail to obtain the evaluation. Please inform the owner about the PHBooklet platform by printing out this [document](#) and handing it to him. If easier, you can also order hard copies of the document [here](#).

If a pet owner does not wish to access the evaluation via the PHBooklet (no registration required), they can request the evaluation from you as before and you can download the PDF via the PHD platform **for the pet owner, but only after you have clicked on "CONFIRM" in the invitation window.**
